

## CANAV Books Special List ... Canadian Titles September 2021

Hi again and here's CANAV's special list of misc. Canadian titles for fall/winter of books, journals and collectables. Shipping info at the end. Queries? Email [larry@canavbooks.com](mailto:larry@canavbooks.com) or tel. (416) 698-7559. For other news & updates see the CANAV blog [www.canavbooks.wordpress.com](http://www.canavbooks.wordpress.com)

Mailing info is at the back.

NB ... most of the books here are used. If new, it usually states so. The average book is at least a good copy. Many have personal dedications in them from when they were originally acquired. This is typical for most such books, it comes with the territory. The description might say "excellent" copy, maybe "good" (not quite perfect, show signs of use and age), fair (a decent enough copy but definitely with signs of age and/or wear). Some rare copies might be somewhat battered, as are some of the very old books, e.g., from 1945 back to the early 1900s. Old books rarely have a dust jacket remaining. So long as a new buyer doesn't expect his book from the 1920s-30s to be in perfect, un-used condition.

Any questions? Drop me a line [larry@canavbooks.com](mailto:larry@canavbooks.com) Cheers ... Larry Milberry

He appears at flying events in the US, becomes an expert in the new art of radio, meets the Wright brothers and Bill Lear + studies the flying wing and other off-beat engineering concepts. When he dies in 1965, Lesh is impoverished. A valuable bio, a case study of the well-researched, well-written book. 186 pp, sc, photos, dias, notes, biblio, index. NEW copy. \$25.00 **\$12.50 B**

[ ] **Airy Somethings: The Extraordinary Life of the Aviation Pioneer Horatio Barber** New book ... Terry Grace and Maggie Wilson have thoroughly researched the life of this eccentric Englishman and his many interests. In his global travels in the late 1800s and early 1900s, Barber spent time in the Australia, USA and Canada too often getting into trouble with women and business ventures. In California he swindled investors in a ranching scheme; in Canada, his chief focus was hustling shares in northern mines. Back in the UK he spent years promoting pioneer aviation ventures, earned Royal Aero Club licence No.30, promoted airplane designs and sales, sold aviation insurance, and served in the RFC in WWI, supposedly even being in America for a time promoting what became the hugely successful RFC training plan. The book concludes with all Barber's shady schemes in the 1920s-50s to his death in 1964.
